Andrew Pirelli, apire001@ucr.edu

Derek Sayler, dsayl001@ucr.edu

Justin Schopick, jscho004@ucr.edu

Retrospective Meeting Notes

Sprint 2 Retrospective Meeting Notes

- Project is on schedule but not fully merged into one product.

- All code should be commented for general understanding between team

    partners, allowing for partners to pick up unfinished code

- We need more team meetings. Some team members are confused about project

    progress and merging code on github. Some code is updated faster than others

    progress

- Some members need help with front end functionality. React is hard to work with.
